MEMORANDUM

TO: Power Committee

FROM: Terry Morlan

SUBJECT: Preliminary Discussion of Expected Changes to Power Plan by Chapter

Staff will describe the expected changes for each chapter and appendix in the draft Power Plan. A paper is attached that contains a brief statement of expected changes in each area. This is a preliminary look as we are expecting additional comments on the draft plan before the end of comments November 6.

Staff's intent is to give the Council as much information as possible about the types of changes we would recommend and have a discussion with the Power Committee to get your views and suggestions.

A similar discussion is scheduled for the full Council, but that discussion is organized around comments received so far and our proposed responses. Clearly, many of the proposed changes to chapters and appendices will be a result of comments we have received. Please refer to the Council packet for a brief summary of comments to date and proposed responses.

Staff will discuss additional comments received by the November 6 close of comments at the meeting. We expect to receive some of the more detailed comments near the end of the comment period.
