MEMORANDUM

TO: Fish and Wildlife Committee

FROM: Lynn Palensky

SUBJECT: Update on Geographic Review

At the October meeting staff will brief the Committee and Council on the draft schedule and portfolio of 85 projects for the upcoming geographic review (attachments). The portfolio also shows potential date ranges and locations for site visits and presentations. We will look to the projects sponsors to assist with the site visit itineraries and logistics. Projects included in this review are the habitat-based projects in the anadromous areas of the basin.

The draft schedule has the Council commencing the review in December 2012 and ending with Council recommendations in the fall/winter of 2013. Since this review will overlap with the onset of Program amendment activities, staff would like to discuss with the members possible synergies and issues of having these two processes overlap.
