## MEMORANDUM

**TO:** Fish and Wildlife Committee

**FROM:** Lynn Palensky, Program Development Manager

**SUBJECT:** Update on Geographic Review

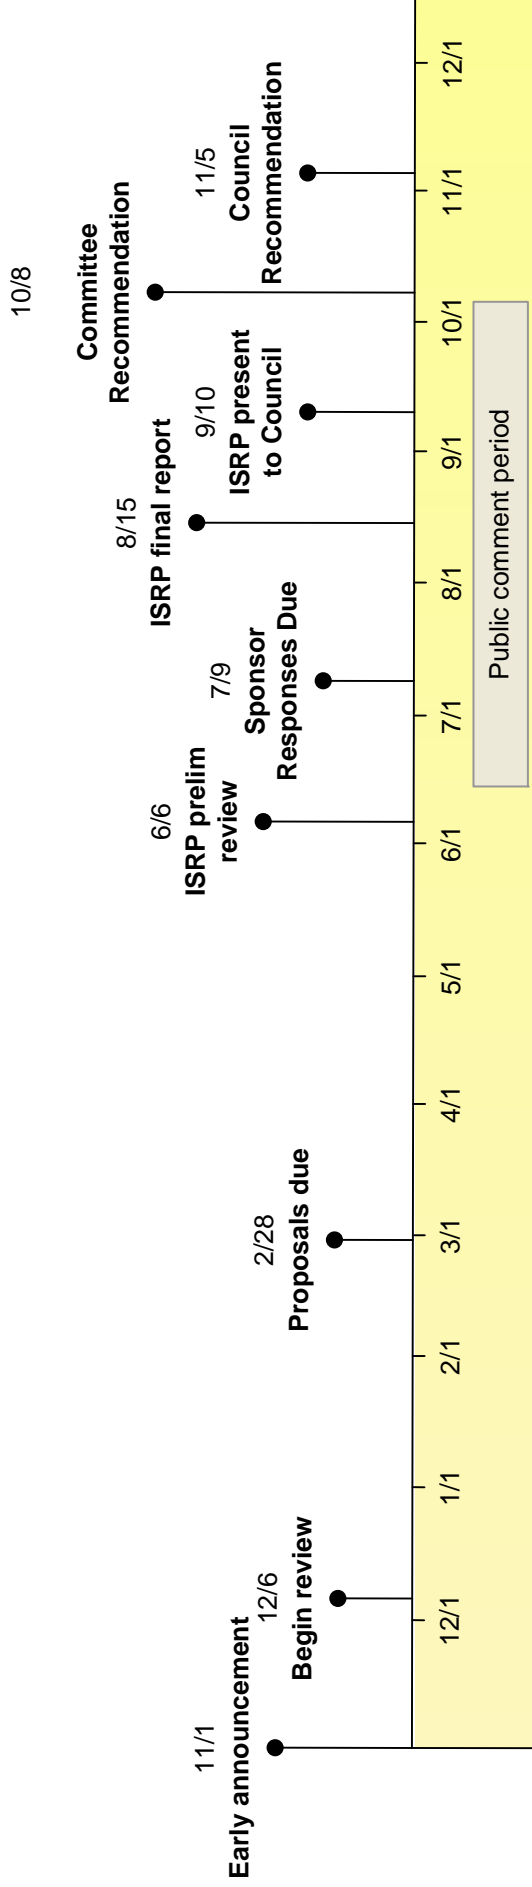

At the October meeting staff briefed the Committee and Council on the upcoming Geographic Review -- both on the portfolio of 89 projects and schedule (see attachments). See the official list in [cbfish.org](http://www.cbfish.org/Portfolio.mvc/Projects/1503) at <http://www.cbfish.org/Portfolio.mvc/Projects/1503>. Projects included in this review are the habitat-based projects in the anadromous areas of the basin, most of which have a FCRPS BiOp RPA association, and many of which are included in a Fish Accord.

The draft schedule has the Council beginning the review in December 2012 and ending with Council recommendations in the fall/winter of 2013. Our next step is to send an early notification email on November 1<sup>st</sup> that will alert sponsors to the official review announcement in December.

At our staff retreat in October, we spent some time discussing particular components of the review process which we will share with the committee. One of the topics was how to relate the habitat work with artificial production activities within the same subbasin or watershed. To the extent possible, we will encourage sponsors to plan and present their priority work together through project presentations and site visits. We look forward to hearing thoughts from the Committee Members.

# DRAFT Geographic Review Schedule for Anadromous Fish Habitat Projects

9-27-12

Category planning	Proposals updated	ISRP review <i>(including response loop)</i> Combined project site visits and presentations	Staff develop recommendations	Council
